To,
Mr, Ghulamhussien J.
Founder Treewise Pencils

No matter who you are or where you live, you can have a positive impact on the planet by engaging in behaviors that reduce the amount of post consumer waste that finds its way into landfills. Many consumer products can be re purposed through recycling.

The Treewise Pencils captured my interest as I evaluated the difference I could make as an individual. We have successfully implemented the use of this pencil within our school students and staff, and would highly recommend the usage of this pencil in other schools to support this Eco-friendly initiative. Additionally, these pencils promise no breakage while writing or sharpening and are made of 100% recycled newspapers.

When you make a point of doing everything you can to help the environment by recycling, your actions make you part of the solution rather than part of the problem. As a society, we must take steps to reduce the amount of waste that is clogging the environment.

Therefore I salute this idea and recommend it to anyone who is willing to make these tiny efforts count.

Yours Sincerely,

A.S. Pagdiwalla
